

Diversified Plastics — Your Partner in Precision Injection Molding

Since 1977, Diversified Plastics has been focused on one goal alone: providing the highest level of quality and service for close-tolerance, small to medium-sized injection molded components.

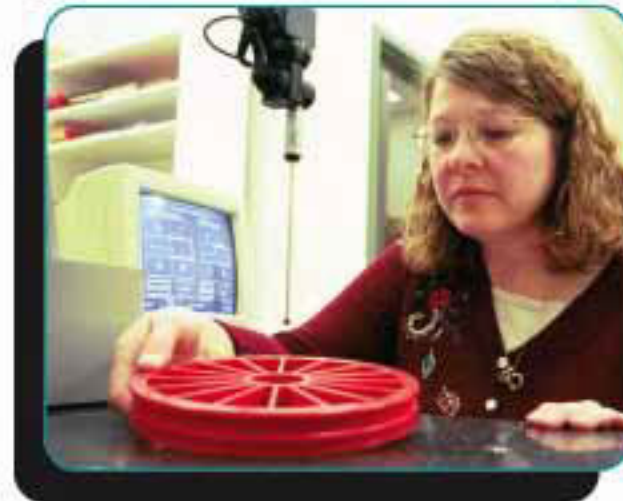

Diversified Plastics is a full-service injection molder offering you a single source for molded plastic parts and assemblies. From design assistance to mold construction... intricate molding to component assembly... quality assurance to 100% on-time deliveries... Diversified Plastics is a leading supplier to the Filtration, Electronics, Medical, Automotive, Industrial, Consumer and OEM markets.

We invite you to take a few minutes and discover for yourself how our commitment to excellence earns us the opportunity to become your partner in precision injection molding.

Experience is Key

When it comes to understanding the precision molding of intricate injection molded parts, Diversified Plastics has it mastered. We have the technical know-how to build the most complicated tooling and work with the most complex resins—from engineering grade to high performance. We also have experience with filled materials, foamed parts and insert molding.

From our talented engineers and skilled machinists right down to our material handlers, machine operators, assemblers—and every employee in between—our people have a longevity record that boasts of experience.

Quality at Every Turn

ISO 9001:2000 certification is just the beginning of our commitment to quality at Diversified Plastics. We go beyond what is required and believe in a continuous improvement program in all phases of manufacturing. All employees understand that quality is their responsibility... from management to production. We are continually training our employees, upgrading our technology and improving the methods of manufacturing to offer you the highest quality molded components available.

Technology-Driven From Start to Finish

At Diversified Plastics, we pride ourselves on our Continuous Improvement Program to upgrade our technical advantage. Our mold-making and production equipment is state-of-the-art and we are constantly searching for methods to improve our quality and performance. Even our building was designed to increase productivity, allowing us a 20% increase in efficiency in the first year alone. Our goal is to constantly improve ourselves to be the best injection molder you will find.

Our on-site mold-making division is capable of building and maintaining even the most complex tooling. We are equipped to offer full development services from the machining of prototype parts to prototype tooling to production molds.

Service, Service, Service

One of the primary ingredients of the success of our company is our dedication to service. Each and every one of us at Diversified Plastics—from the president on down to the press operators—recognizes that your satisfaction is key to our future.

We pride ourselves on knowing our customers personally and being able to respond immediately to requests for quote, order inquiries and delivery requirements.

Our size and organizational structure allow for a flexibility not possible with larger injection molders. Our customer service team is dedicated to providing knowledgeable assistance and prompt response.

Several programs allow Diversified Plastics to be a World Class Supplier of custom injection molded parts. They include Benchmarking and Lean Manufacturing—starting with our 5S Program, all of which allow us to serve you better.

Let Diversified Plastics Focus Our Attention On You

Call Diversified Plastics today at (763) 424-2525 and let us show you just how hard we will work for you. We are committed to becoming your preferred partner and look forward to the opportunity to focus our attention on you!

- ISO 9001:2000 Certified
- Engineering Design Assistance
- In-house Tooling
- SolidWorks®, Cadkey®, and Mastercam® Software
- Complex Mold Construction
- Custom Molding with Close Tolerances
- Component Assembly and Decorating
- Tool Transfer Program
- Packaging Services
- Cost Containment Program
- World Class Supplier
- 100% On-time Delivery
- Dock-to-Stock Programs
- Inventory Management
 - Kanban, Consignment, J.I.T.
- 50 pieces to 5,000,000
